CONTACT US

*In each tanker we have fitted GPS device so that we can trace out the location of the tankers through the latest technology of (G.P.S), and we can make the further planning for the tankers loading. Every Drivers and Transport staff connected with mobile facilities use of GPS systems in trucks is increasingly common. A GPS system fitted to a truck will mean that the transportation company will be able to track all their loads throughout their journeys. This will ensure a clear picture of where their vehicles are and we will be able to track their progress as they deliver their goods. Customers waiting for deliveries can then be given a reliable report of progress and a definite expected time of delivery. With the help of this system we can control our staff and in touch with our tanker for 24 x 7
